

## FSC

The Forest Stewardship Council (FSC) is an independent, non-governmental, not-for-profit organization established to promote the responsible management of the world's forests. FSC provides standard setting, trademark assurance and accreditation services and market access for companies and organizations interested in responsible forestry. Products carrying the FSC label are independently certified to assure consumers that they come from forests that are managed to meet the social, economic and ecological needs of present and future generations.

Nevers Industries Inc. supports the FSC mission and purchases 100% of its wood products from its FSC-certified producer. For more information on FSC, visit their Web site at [www.fsc.org](http://www.fsc.org). To learn more about Nevers' FSC capabilities, click on the related documents below.
