

## Eventi

# The ultimate choice

The boardroom demonstrates your corporate identity and strength. It is a reflection of how your company thinks. And performs. Nevers Eventi Collection helps you create an environment that reflects and inspires modern brilliance. Collaborating with Italian designer Roberto Danesi, Nevers combines sleek contemporary design with unprecedented flexibility, form and function. The result: your Complete Meeting Room.

# Eventi Articulating Tables

Contemporary meeting rooms have been redefined. Whether your goal is a formal presentation or a simple exchange of ideas, today's office settings must accommodate every interaction comfortably and seamlessly. Eventi Articulating Tables and accent products are the modern solution. They artfully and instantly convert to fit any meeting dynamic or user need. Our exclusive Articulating Mechanism enables a single user to easily manipulate the largest of tables.

# Eventi Modular Tables

Simply, Eventi Modular Tables present you with more design options, inspiring more effective meetings. Created to accommodate larger groups, these unique, semi-fixed table groupings are easily reconfigured to form the most optimum settings. Whether your focus is executive training, video conferencing or a multi-media presentation, our Modular Tables are designed to enhance any meeting experience. Featuring industry-leading technology exclusively from Nevers.

U MODULAR TABLE E/TGU/1212 WITH GLASS ROUNDS

DIAMOND MODULAR TABLE E/TGD/1218 WITH GLASS ROUNDS

Renowned design, flawless performance, and unmatched technology: the Eventi Conference Table is a high achiever on all fronts. Architectural elements of wood, metal, glass or stone uniquely accent its modular surface. Select the ideal shape, base option and size to create the conference table that reflects your corporate vision.

## Eventi Meeting Link™

### The perfect blend of Power, Data and Multimedia

Meeting rooms realize their fullest potential when individual furniture pieces perform multiple roles.

Eventi Tables embed technology from within. First, the technology requirements are created. Then the table top is attached. This artful process creates superior voice, data, and AV integration with seamless, component-friendly media.

The Eventi Conference Table functions as media docking station, power strip and multi media projector. Modular, UL listed, Four Circuit and Single Circuit power block connections are typically present in Eventi tables. How do we do it? Power is in-fed at any point where the table touches the floor to ensure the perfect integration of power and data.

Eventi infuses the art of technology into the executive environment. The outcome: a more effective executive meeting.
