 NEVERS®

Forty Years of Expertise Executed with Passion

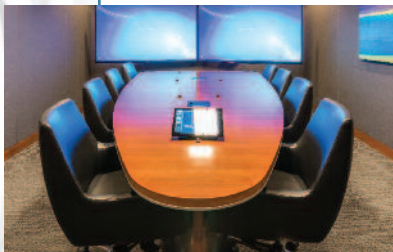

Impressive Legacy. Named for the Nevers oak trees in France used to make wine barrels, Nevers Industries began as Nevers Oak in 1976 when, Gerald (Gerry) Evenstad, started providing custom woodworking services. Over the years, he grew Nevers into a national brand of commercial tables and case goods. Today we honor Gerry's legacy as a second-generation, family-owned company.

Expert Craftsmanship. Nevers team members are experts at what they do, whether woodworking, sales, shipping or customer service. Each member of our team exhibits a craftsman's passion for detail and is personally invested in the process.

Can-Do Flexibility and Collaboration. We nimbly accommodate and collaborate with customers for tailored solutions that deliver striking results. From slight modifications and semi-custom upgrades to creating one-of-a-kind showpieces, we bring can-do flexibility and problem solving know-how to every project.

Fit-for-Performance Solutions. From start to finish, our fit-for-performance solutions fuel workplace productivity for our customers by incorporating the latest technology, fostering collaboration and inspiring organizations to thrive.

Minnesota-Based Production. We demonstrate a daily commitment to on-shore production by selecting trusted, domestic and local suppliers. We employ a US-based workforce to build beautifully crafted tables and case goods that conveniently and quickly ship from our centralized Minnesota facility.

WE CRAFT SUPERIOR PRODUCTS THAT ALLOW
PRODUCTIVE PEOPLE TO *WORK IN STYLE.*
