L03
Timeless Grey

L04
Pebble Grey

L05
Royal Grey

L06
Pearl Black

Solid color laminates with a Perfect Matte finish are smooth and velvety to the touch. Perfect Matte consists of a poured lacquered liquid layer with multiple intermediate layers to protect the surface and enhance the depth effect. Perfect Matte finishes are anti-fingerprinting, heat resistant and UV light resistant.

STANDARD LAMINATE

L16
Silver Bay

L17
Cottage Grove

PLEASE NOTE: Variations in laminate color, sheen and texture may occur from piece-to-piece dependent upon batch numbers. The color fastness or texture of any laminate can fade or darken with normal use and as a result of exposure to light. Laminates have matching linear edge bands.For best representation of a finish shown below use a physical sample. Samples will vary from final product due to natural variations in texture, color, grain pattern and finish individual sheets.

Please note that samples will vary from final product due to natural variations in texture, color, grain pattern and finish individual sheets.

Curated Cambria Quartz Designs

Cambria offers the broadest and most innovative design palette in the industry. From timeless classics to cutting-edge contemporary, you're sure to find the perfect selection to complement your Nevers furniture project.

Both Cambria and Nevers are Minnesota companies separated by only a few miles. Cambria is our first partner of choice, not only because of their proximity to us but also for their well-established position as a world-class supplier of stunning quartz surface material. No other company has a variety of designs. No peer can deliver a more professional degree of sales, fabrication, installation, and service assistance.

Nevers provides Cambria quartz designs for tops and bases on a custom design and order basis. If you would like to incorporate quartz surfaces into your project, please contact Nevers.

Power Options

Power option pricing and specifications may be found in the Nevers Power Option price list. You can download your copy from our website: www.nevers.com

Specifying

Orders for Nevers products are constructed from your submission of a string of codes in this price list (typically the codes should be separated by slashes). These codes are applied to quotes as well as to sales orders. The codes move from left to right describing the major elements of the product down to options and preferences.

Nevers Symposia tables include bases as a single unit. The tabletop and the bases are specified at the same time. You will have to provide the codes for both construction elements.

An Example of A Finished Code String: Y/**TPA/AE/14430/BW1**

Symposia Presentation Tables

These tables are inspired by the ancient Greek dialogues on philosophical and political issues. The sumptuous lines and elegant curves foster conversations by turning meetings into a collective gathering at which there is a free interchange of ideas and intellect. The tables are offered in a nearly unlimited collection of designs for greater versatility.

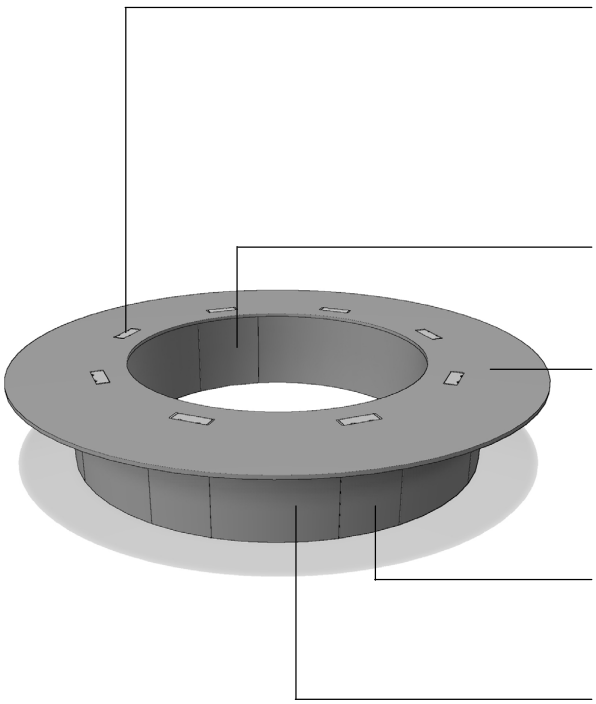
Symposia Presentation Table Description



Power, Voice, And Data

The Infinity Base is specifically designed to allow technology to be installed before the tabletop is attached. The interior offers multiple heights for wire management as well as continuous wire management running the full perimeter of the table. Nevers offers a wide variety of power options and the flexibility to incorporate your AV provider's mics and technology.

The Pass-Thru Door

The pass-thru door allows quick access to the interior of the table, only featured on closed-shape tapes (e.g. Round, Rectangle, and Oval).

The Tabletop

Symposia tables are built using a 1-3/16" thick core. Tables are available in a variety of shapes, sizes, materials, and finishes. Veneer tables are always sequenced, and book-matched to maximize the beauty of the natural wood grain. Our finishes are hand-applied and hand-sanded.

The Access Door

Every Infinity Base comes standard with a hinged access door adjacent to every power unit which provides easy access to the hollow interior of the base.

The Infinity Base

The shape of the Infinity Base echoes the shape of the tabletop for elegant continuity of design. The base's engineering allows a generous 20" of clear legroom on 36" deep tops and 18" on 30" deep tops. The base is the full height from the underside of the table to the levelers at the finished floor and is finished on both sides, which graciously performs as a modesty panel for everyone seated at the table.

Symposia Conference Tables

Symposia Conference tables are exquisitely beautiful and agile. The tables are offered in sinuous and angular geometric options, with wood, metal, and laminate materials available for an unlimited collection of design versatility. The Infinity bases are specifically designed to provide luxurious leg room, multi-level wire management, and an elegant full-length modesty panel.

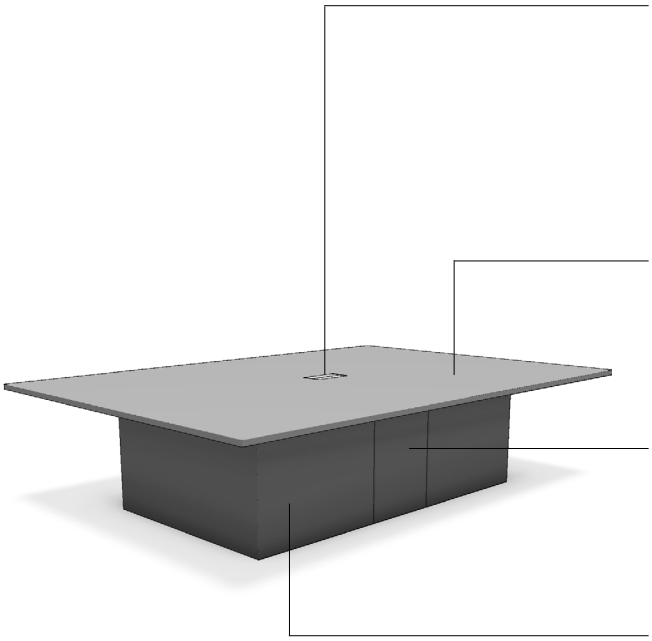
Symposia Conference Table Description



Power, Voice, And Data

The Infinity Base is specifically designed to allow all of the power and technology to be installed before the tabletop is attached. The interior of the Infinity Base offers multiple heights for wire management as well as a spacious hollow interior for CPU storage, AV Amplifiers/equipment, and unimpeded core drill access. Nevers offers a wide variety of PVD options and the flexibility to incorporate your AV provider's microphones and technology.

The Tabletop

Tables are built using a 1-3/16” thick core and a variety of edge profiles. Tables are available in a variety of shapes, sizes, materials, and finishes. Veneer tables are always sequenced and book-matched to maximize the beauty of the natural wood grain. Our finishes are hand-applied and hand-sanded.

The Access Door

Every Infinity Base comes standard with a hinged access door which provides easy access to the hollow interior of the base. When power is ordered, the Infinity base will automatically be configured with an additional access door adjacent to every power unit.

The Infinity Base

The shape of the Infinity Base echoes the shape of the tabletop for elegant continuity of design. The base’s engineering allows a generous 20” of clear legroom on 36” deep tops and 18” on 30” deep tops. The base is full height from the underside of the table to the levelers at the finished floor and is finished on both sides, which graciously performs as a modesty panel for everyone seated at the table.
