DAISYLINK SYSTEM

Multiple units link together from a single power source distributed across the two circuit system. Modular in nature, the DaisyLink™ System has no restrictions on order of connection, allowing power units to use this system in any ordering structure.

Specifications

- (2) utility circuits share neutral and ground
- All circuits rated for 20 Amps
- Quick disconnect uses female/female cables to connect to compatible units
- Link up to 40 receptacles (20 duplexes) across two circuits
- UL / ETL listed for US and Canada

Product Compatibility

Hennepin

Components

Two Circuit Hardwire Infeed

Available in three lengths, 72", 108" and 120". Must be connected to building circuitry by professional electrician.

Single Circuit 20 Amp Plug Infeed

Available in one length, 72". Only circuit one units can be used with the plug infeed. Note: 20 Amp corded infeed is UL Recognized only (UL 1286).

Female/Female Jumper

Continues the power supply between multiple power units.

Male/Female Jumper

Extend the length of a female/female jumper or connect a power unit to the Daisy-T.

Daisy-T

Branches the system in two directions. Contains two male and one female ends.

Quick Disconnect

Insert for floor box and wall outlet applications. Fits standard decora opening.

Two and Four Outlet Power Blocks

Mounts underneath the table top to provide power to ancillary equipment or supply power to multiple power units. Circuit two units only compatible with hardwire infeed.

4TRAC SYSTEM

This single sided system is designed to be sleek and thin measuring 1” deep by 1-1/2” wide to fit in small spaces. 4Trac fits just about anywhere but works best mounted under tables or built into troughs. The 4Trac system is rated for 20 Amps per circuit allowing the use of two circuits.

Specifications

- Connect up to a maximum of 20 receptacles per circuit (10 duplexes per circuit).
- Hardwire or 20 Amp plug infeed.
- Infeeds and jumpers are enclosed in flexible metal conduit.
- Conductors are 12 AWG with two line conductors sharing a neutral and a ground
- UL Listed as a Manufactured Wiring System (UL 183).
- UL Recognized as an office Furnishing Accessory (UL 1286).
- Meets NEC (National Electric Code) articles 604 and 605.

Components

Two Circuit Hardwire Infeed

Available in three lengths, 72", 108" and 120". Must be connected to building circuitry by professional electrician.

Single Circuit 20amp Plug Infeed

Available in one length, 72". Only circuit one units can be used with the plug infeed. Note: 20 Amp corded infeed is UL Recognized only (UL 1286).

Female/Female Jumper

Continues the power supply between multiple power units.

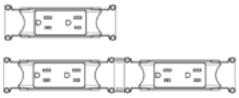
Male/Female Jumper

Extends the length of a female/female jumper.

H-Connector

Branches the system in two directions. Contains four male ends.

Duplex and Quad Receptacles



Mounts underneath the table top to provide power to ancillary equipment or supply power to multiple power units. Circuit two units only compatible with hardwire infeed.
