SPECIFICATION GUIDE

Best practices for specifying Symposia

1. Determine the functional requirements for the space.
 - How is the room used?
 - How many people need to fit?
 - Does the table need to provide power?
 - What are the power requirements?
 - Determine the size table you need.
2. Select your top finish.
 - Determine if laminate, veneer or Cambria quartz is the best fit for your tables.
4. Select your base finish, laminate or veneer.
5. Select your power and finishes.
 - Determine if undermount or in-surface is the best fit for your tables.
6. Build your part number based on your selections.
7. Place your order.

SUBMITTING A PURCHASE ORDER

Please send all purchase orders to orders@nevers.com. We require a clean PO, signed drawings, and for all commercial orders a 50% deposit before the order will be scheduled and materials ordered. 50% deposit can be paid by ACH, check or credit card (credit card fees apply.)

LEAD TIMES

Lead times are measured from the date of approved, signed drawings and receipt of the project deposit. Some materials for “Modified” or “Custom” tables may have long or variable lead times (inset logos, etc.).

The lead times shown at [nevers.com/lead-times/](https://www.nevers.com/lead-times/) are general estimates for planning and not a guarantee of completion. Nevers is not responsible for delays caused by approval chains, order entry complexity, stain-to-match time required, or vendor supply chain stability.

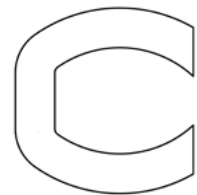

The most up to date lead time information can be found at [nevers.com/lead-times/](https://www.nevers.com/lead-times/)

Natural Finish

PLEASE NOTE: Variations can occur in texture, color, grain pattern and finish penetration due to natural variation in species used. No guarantee can be made of an exact match due to the inherent, natural variations described.

Wood is a natural material and variations are part of its inherent beauty and are not considered defects.

All wood finishes darken with age and exposure to ultraviolet light. This is more apparent with cherry and maple veneers.

For best representation of a finish shown above use a physical sample. Samples will vary from final product due to natural variations in texture, color, grain pattern and natural variations.

STANDARD LAMINATE

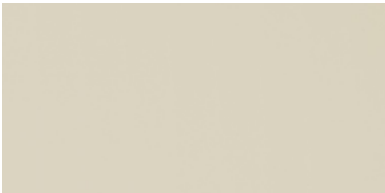

Solid Color - Perfect Matte Finish

L01
Snow White

L04
Pebble Grey

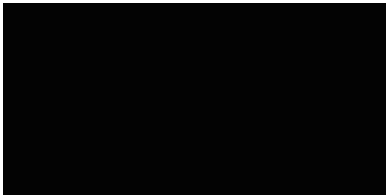

L02
Breezy Beige

L05
Royal Grey

L03
Timeless Grey

L06
Pearl Black

Solid color laminates with a Perfect Matte finish are smooth and velvety to the touch. Perfect Matte consists of a poured lacquered liquid layer with multiple intermediate layers to protect the surface and enhance the depth effect. Perfect Matte finishes are anti-fingerprinting, heat resistant and UV light resistant.

STANDARD LAMINATE

Woodgrains

L07
Lexington Oak

L13
Granite Falls

L08
Excelsior Oak

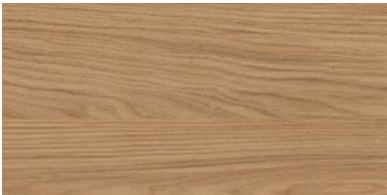

L14

L09
Rushford

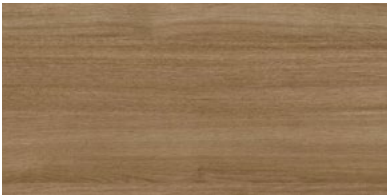

L15
Iron Wood

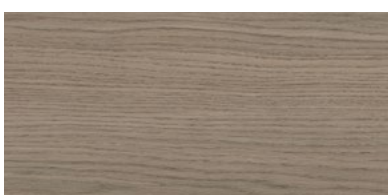

L10
Breckenridge Oak

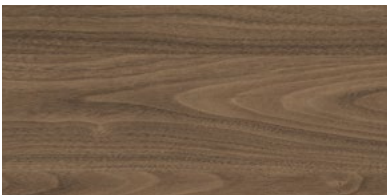

L16
Silver Bay

L11
Afton Oak

L17
Cottage Grove

L12
Cuyuna Walnut

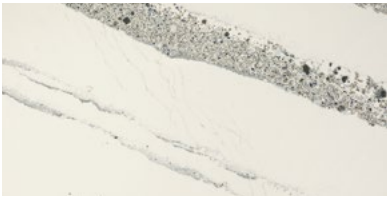

PLEASE NOTE: Variations in laminate color, sheen and texture may occur from piece-to-piece dependent upon batch numbers. The color fastness or texture of any laminate can fade or darken with normal use and as a result of exposure to light. Laminates have matching linear edgebands.

For best representation of a finish shown above use a physical sample.

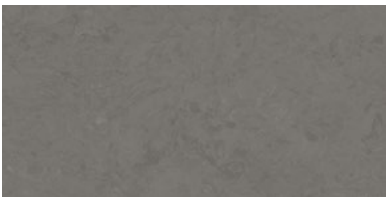

Laminates with simulated wood grain and/or texture will run the length of the table. Nevers cannot guarantee a grain match at the table seams.

For best representation of a finish shown above use a physical sample.

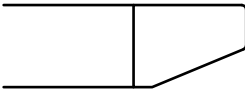

PLEASE NOTE: Quartz tops with veins and/or movement lines will not line up between sections/joints. This is a natural product and is unavoidable.

Installation and/or seaming is not included. Nevers recommends hiring a local certified professional installer. Cambria warranty does not apply unless tops are seamed.

TABLE TOP EDGE DETAILS

Standard Wood Veneer

Wood veneer tops are 1-3/16" thick.

EP-503 Premium Knife edge
1-5/8" solid wood

EP-501 Reverse Bevel edge
1-5/8" solid wood

EP-407 Bullnose edge
13/16" solid wood

EP-401 Step Radius edge
13/16" solid wood

EP-201 Lineal edge
3/16" solid wood

Standard Laminate

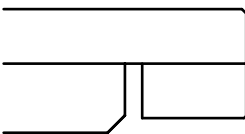

Laminate tops are 1-3/16" thick.

EP-105 Lineal edge
Matching edgeband

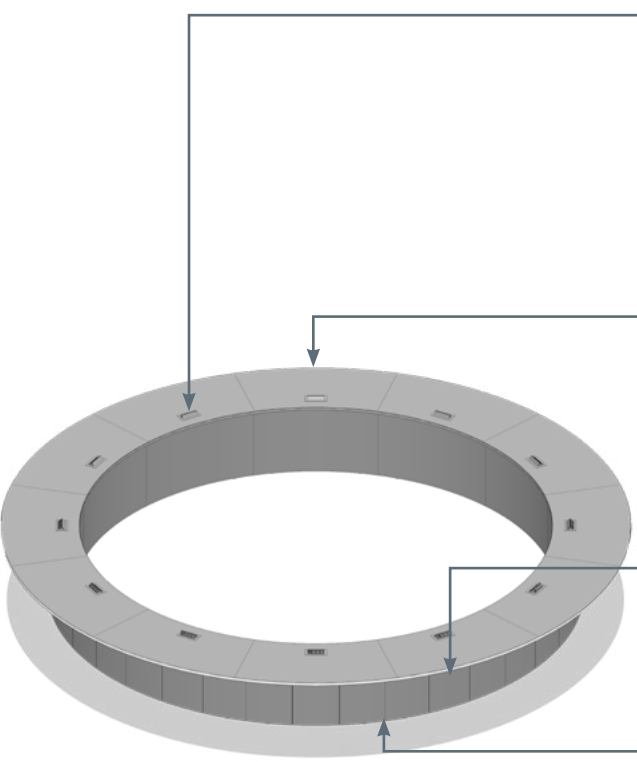

Quartz Edge

Cambria quartz tops consist of 2cm thick quartz with 4cm built-up edge and 1" thick concealed plywood subtop.

EP-702 "Z" Seacliff Lineal edge
4cm built-up edge

PRESENTATION TABLE FEATURES

Power, Voice, and Data

The Infinity Base is specifically designed to allow technology to be installed before the tabletop is attached. The interior offers multiple heights for wire management as well as continuous wire management running the full perimeter of the table. Nevers offers a wide variety of power options and the flexibility to incorporate your AV provider's mics and technology.

Tabletop

Tables are available in a variety of shapes, sizes, materials, and finishes. Veneer tables are always sequenced, and book matched or slip matched to maximize the beauty of the natural wood grain. Our finishes are hand-applied and hand-sanded.

Access Door

Every Infinity Base comes standard with an access door in every base section which provides easy access to the hollow interior of the base.

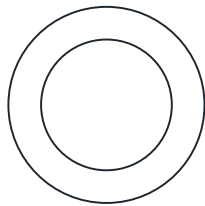

Infinity Base

The shape of the Infinity Base echoes the shape of the table top for elegant continuity of design. The base's engineering allows a generous 20" of clear legroom on 36" deep tops and 18" on 30" deep tops. The base is the full height from the underside of the table to the levelers at the finished floor and is finished on both sides, which graciously performs as a modesty panel for everyone seated at the table.

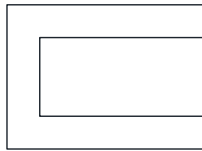

PRESENTATION TABLE SHAPES

These tables are inspired by the ancient Greek dialogues on philosophical and political issues. The sumptuous lines and elegant curves foster conversations by turning meetings into a collective gathering at which there is a free interchange of ideas and intellect. The tables are offered in a nearly unlimited collection of designs for greater versatility.

GRAIN DIRECTION

Wood Veneer

Grain direction on wood veneer table tops runs parallel to the depth, short grain. Grain direction on the base runs vertically.

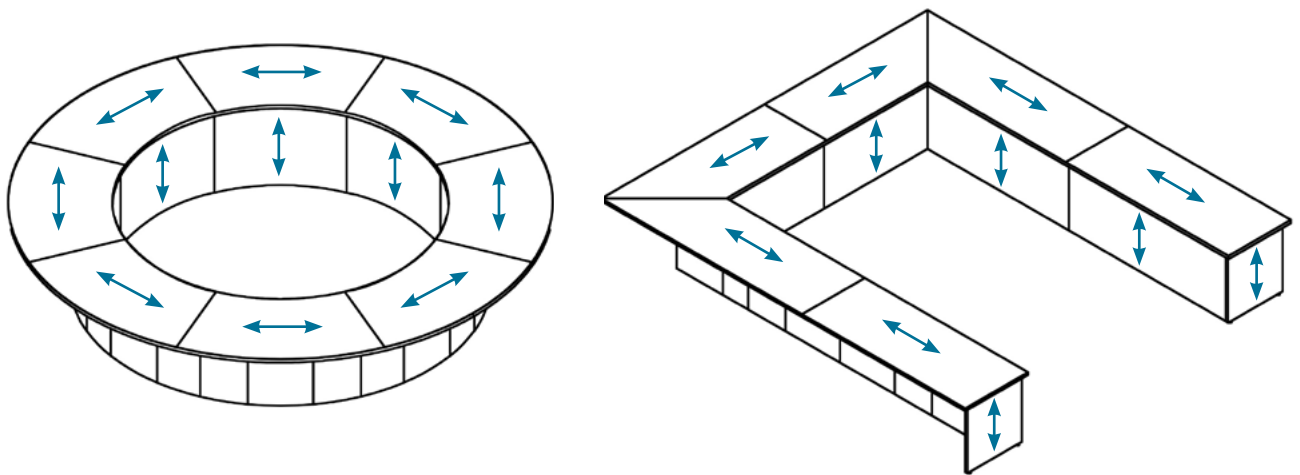

Wood veneer tables are constructed with veneer on the table top and base from the same tree, providing consistency in color and grain pattern. Wood veneer is bookmatched or slip matched, depending on species and cut, on both the table top and base. Plain sawn wood veneers feature a cathedral grain and points to the center of the table top.

Laminate

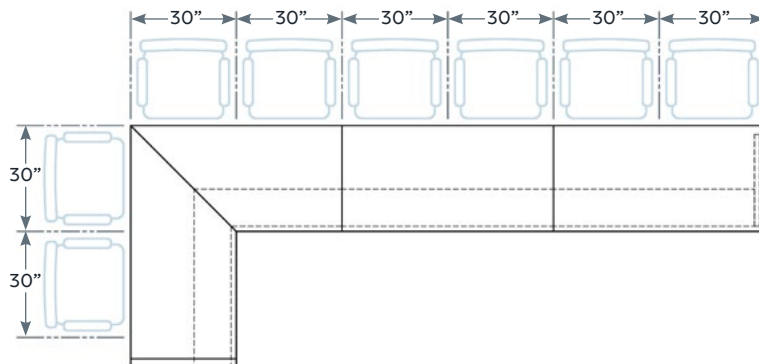

Grain direction on laminate table tops runs parallel to the length, long grain. Grain direction on the base runs vertically.

Nevers' master craftsmen take exceptional care to create a beautiful table with expertly optimized grain matching, however, matching grain at the seams of laminate tables with a wood design is not always possible. Laminate is inspected for defects, color matching and sheen variations to ensure consistency and quality.

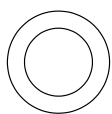

SEATING CAPACITY

Seating capacity is based on 30" per person.

PRESENTATION TABLE OPTIONS

TABLE TOP OPTIONS

Fanned Veneer

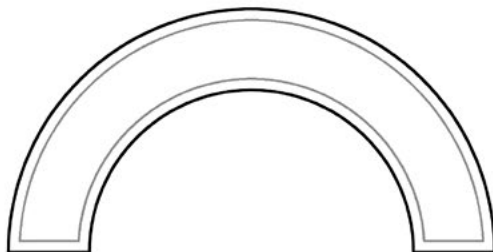

Wedge-shaped pieces of wood veneer are arranged and joined to radiate outwards from an imaginary center point, creating a “fan” pattern.

Ebony Inlay

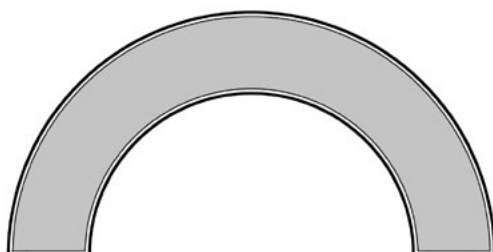

1/4" pieces of ebony inlay are inset into hand-routed grooves located 4" from the edges of the table top, creating a border or framing effect.

*Available in black finish only.

Laminate Inset with Wood Edge

High pressure laminate is edged with solid wood and finished flush. When a wood grain laminate is specified, a matching wood species is applied and stained to match.

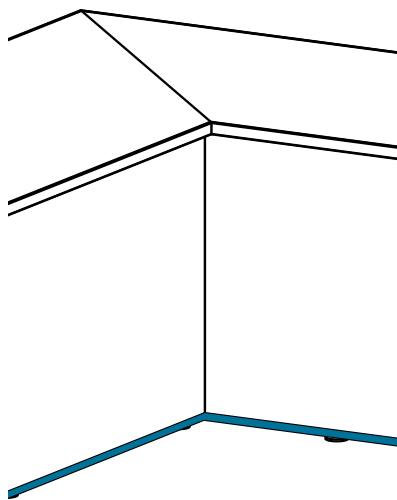

PRESENTATION TABLE OPTIONS

BASE OPTIONS

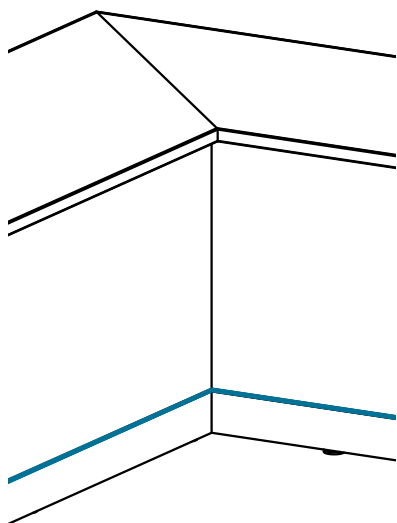

Plinth

A 3/4" high plinth base is inset 1/4" around the entire perimeter of the base. Plinth is available in black or silver. End panels do not receive a plinth.

Reveal

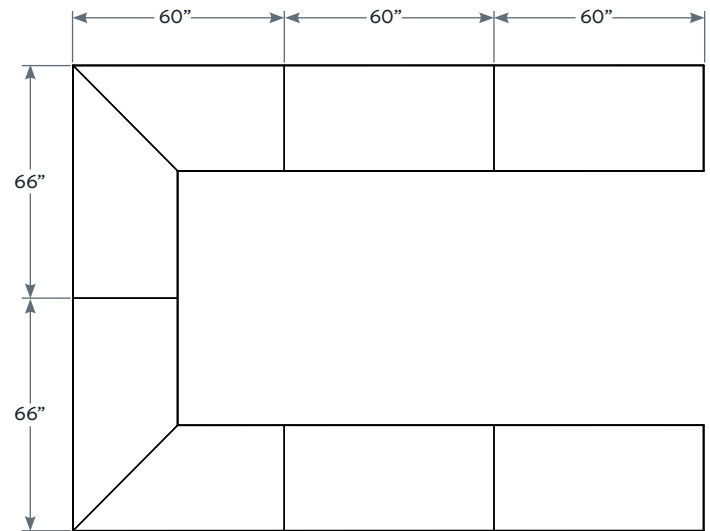

1/4" x 1/16" section of the base is routed out and finished black, creating a decorative void. The reveal is located 4" above the bottom of the base on the inside of the base only.

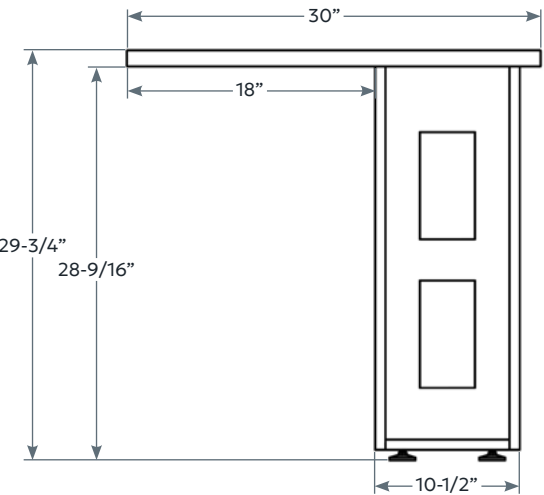

BASE SPECIFICATIONS

The shape of the Infinity Base echoes the shape of the table top for continuity of design. The base is full height from the underside of the table to the levelers at the finished floor and is finished on both sides, which functions as a modesty panel.

Presentation table sizes are optimized to allow 30" per person. Tables are divided into sections as close to 60" as possible.

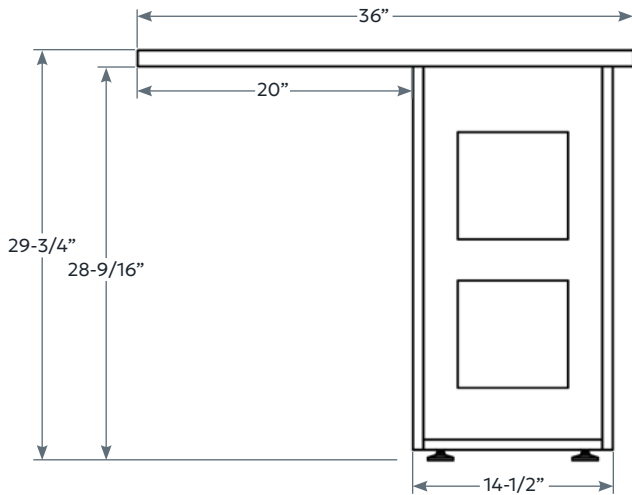

Base Dimensions

30" Deep

30" deep table tops feature a 10-1/2" base, allowing for 18" of clear leg space.

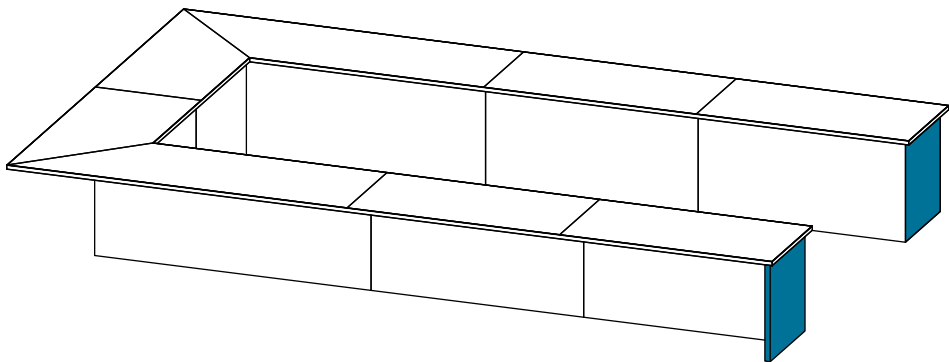

36" Deep

36" deep table tops feature a 14-1/2" base, allowing for 20" of clear leg space.

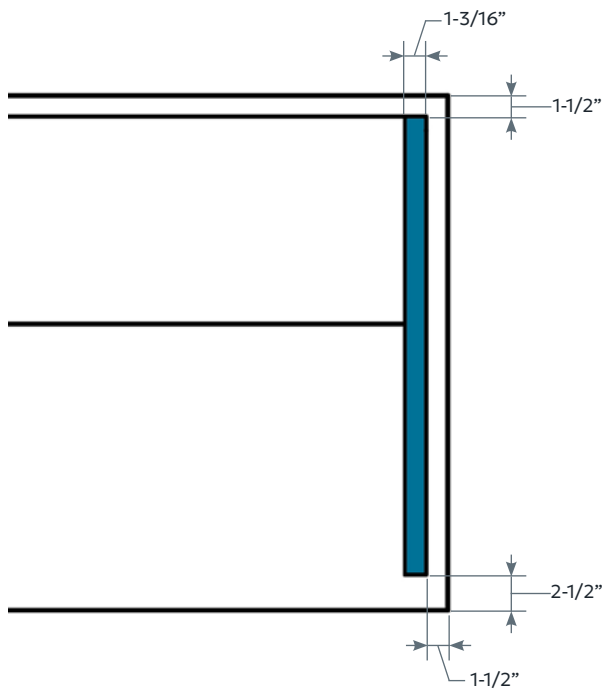

BASE SPECIFICATIONS

END PANELS

End panels are 1-3/16" thick. End panels are standard on all table shapes except Open Center Round, Open Center Oval, and Open Center Rectangle.

End Panel Dimensions

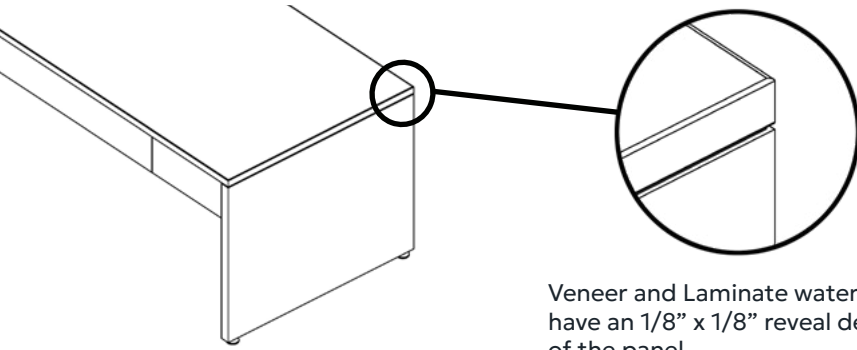

BASE SPECIFICATIONS

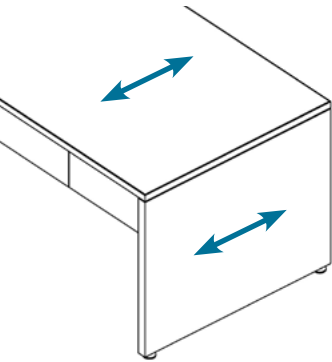

WATERFALL END PANEL OPTION

The table top material extends vertically down to the floor, creating a continuous, cascading “waterfall” look. Available in veneer, laminate, and Cambria with a lineal edge on table top.

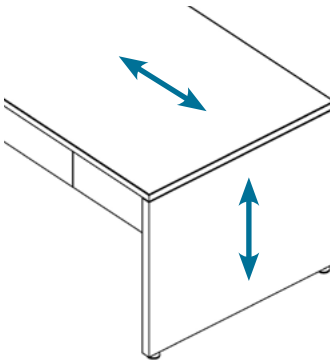

Veneer and Laminate Waterfall End Panels

Veneer and Laminate waterfall end panels have an 1/8" x 1/8" reveal detail at the top of the panel.

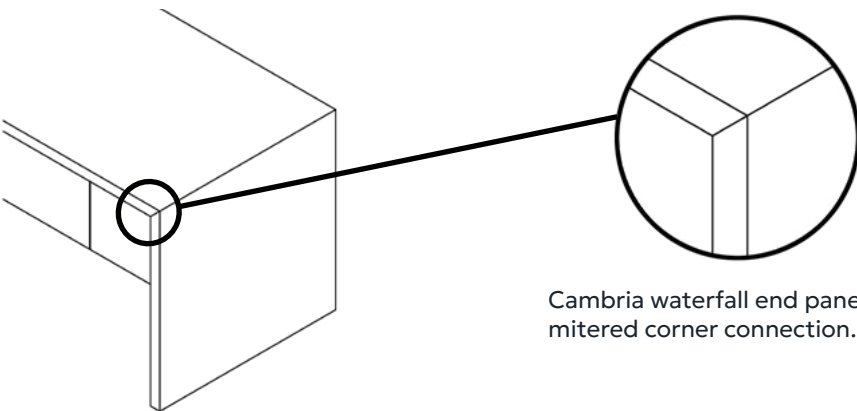

Veneer Waterfall Grain Direction

Laminate Waterfall Grain Direction

Cambria Waterfall End Panels

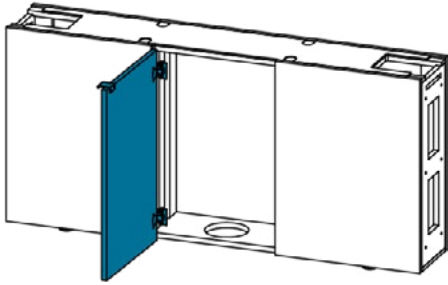

Cambria waterfall end panels feature a mitered corner connection.

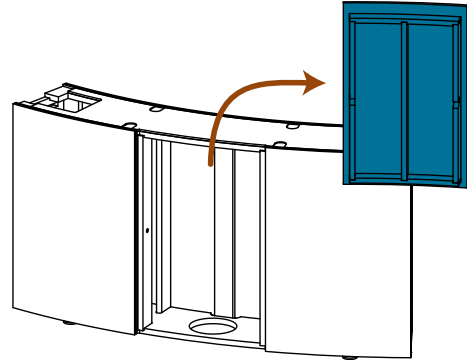

BASE SPECIFICATIONS

ACCESS DOORS

Every base section comes standard with an access door centered on the base section.

Straight Base with Hinged Door

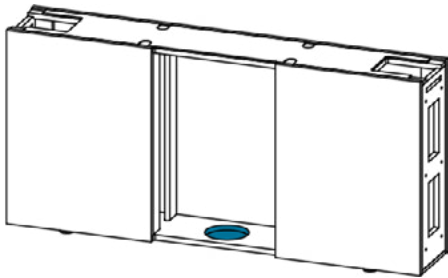

Curved Base with Removable Access Door

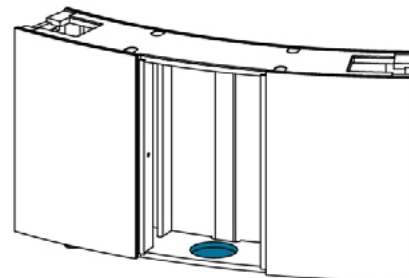

FLOORCORE CUTOUTS

Round cutouts in the bottom of the base are centered adjacent to every access door for access to floorcore locations.

Cutouts on 30" deep tables are 6" diameter.
Cutouts on 36" deep tables are 10" diameter.

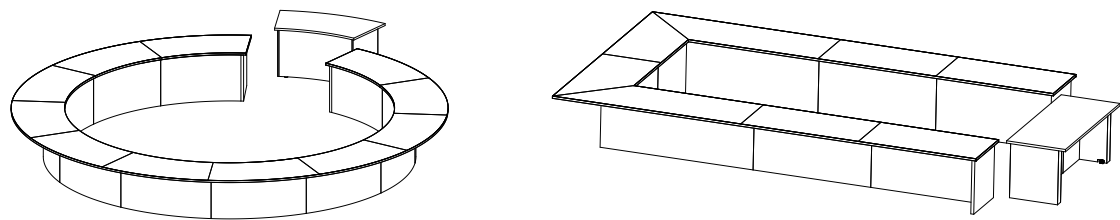

Straight Base with Hinged Door Removed

Curved Base with Access Door Removed

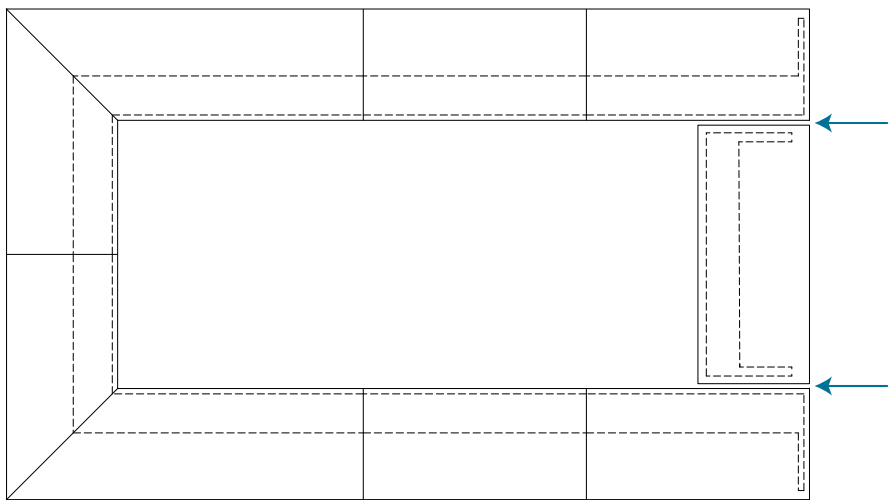

CONNECTOR TABLE

A connector table can be added to the Open Center C and U-Shape tables to enclose the table shape. Concealed casters with 360 degree rotation allow the connector table to be easily moved to enable access to the inner section of the table.

SIZING

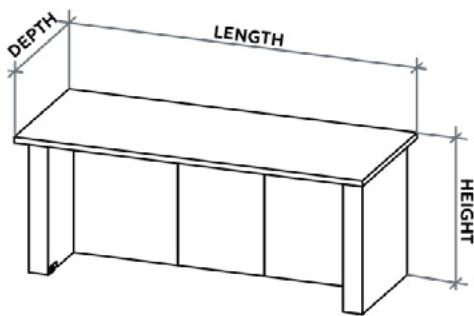

Connector tables are 1/4" shorter than the opening width allowing for an 1/8" space on each side.

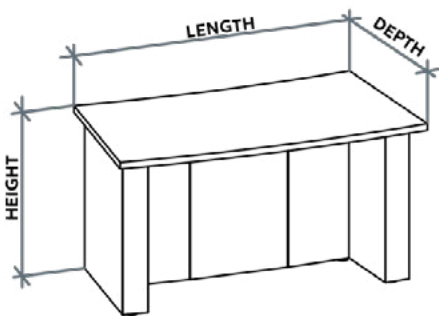

1/8" gap* exists between primary table and connector table to allow for ease of movement.

*Gap shown in graphic not to scale

CONNECTOR TABLE DIMENSIONS

Straight Connector Table

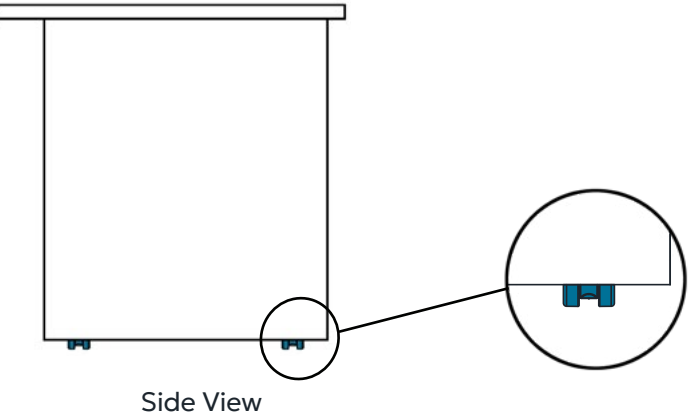

Curved Connector Table

CONNECTOR TABLE

CONCEALED CASTERS

Castors are built into the table base and are concealed from view on front and sides. Two locking casters are accessible in the user seating area to prevent the table from moving.

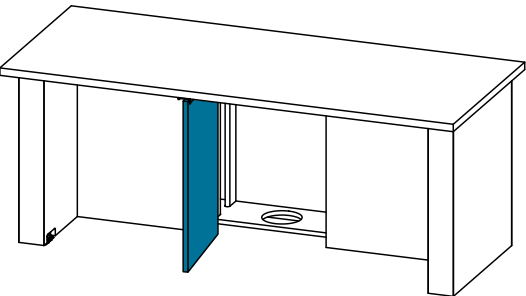

Castors provide 3/4" of clearance from the bottom of the base to the floor.

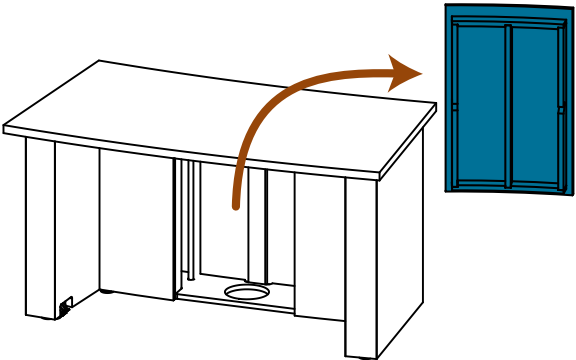

Please note: Due to floor variances, there is a possibility that the height of the connector table will not align with the height of the leveled Symposia table.

ACCESS DOORS

Each connector table comes with an access door to allow for power connections.

Straight Connector Table with Hinged Door

Curved Connector Table with Removable Access Door

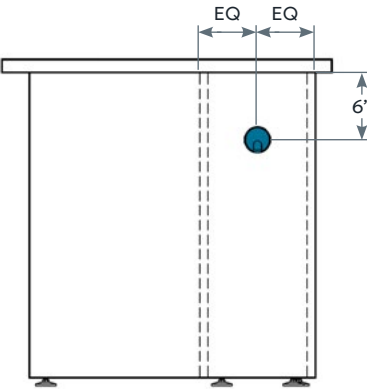

CONNECTOR TABLE

CONNECTING POWER

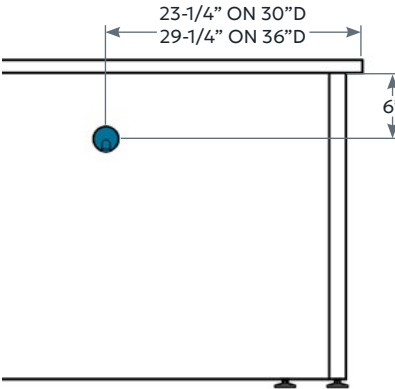

Connecting and disconnecting the connector table power to the main table power can be accomplished either through a grommet or a power unit mounted to the side of the main table.

Grommet

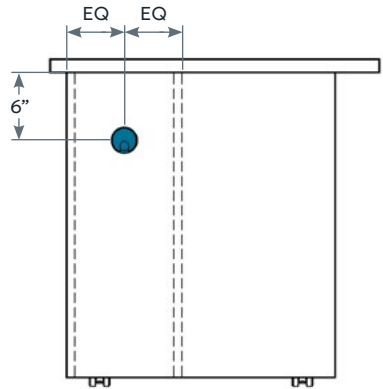

Grommets are ideal for use with linking systems where the connector table power is linked via jumper to the main table power system.

POWER KITS

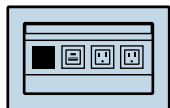

Power and data connectivity on Symposia tables is provided using pre-configured power kits with the option of in-surface power with Becker or Sibley units or undermount power with the Wilkin unit.

Power Units

Becker

Configuration

- (2) Power Outlets
- (1) USB A+C charging ports
- (1) Open port for IT/AV connection

Sibley

Configuration

- (2) Power outlets
- (1) USB A+C charging ports
- (1) Open port for IT/AV connection

Wilkin

Configuration

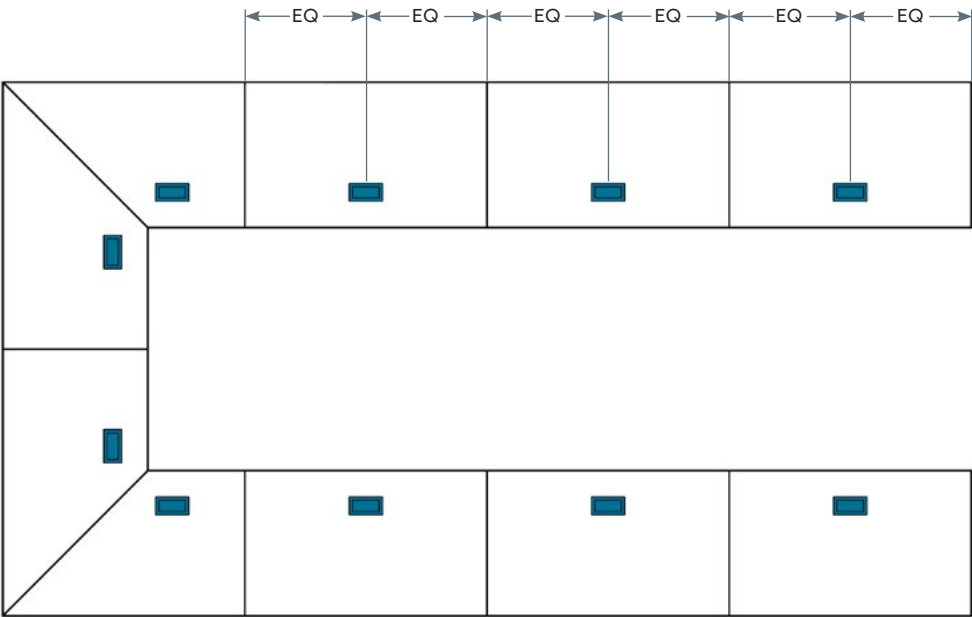

- (2) Power outlets
- (1) USB-A+C charging ports

- See power pricebook for additional information on power units and Pattern linking system.

Placement

The placement of the power units is configured to accommodate two people per power unit. Typical spacing of the power units is centered on each top section when possible.

POWER KITS

POWER KIT WITH LINKING SYSTEM

Each power unit is connected into a single circuit modular electrical system in the table from which a 15 amp plug infeed connects to the floor monument. Power units are connected to male/female jumpers and the infeed with white distribution blocks. White distribution blocks allow for one power unit, 1-3 jumpers and one infeed. 10 power units can be connected together with one infeed. Power kits with more than 10 units will include two infeeds.

Power Kit Components

108" Long 15 Amp Circuit Breaker Plug Infeed

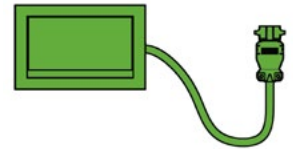

*Infeed comes standard with 90 degree plug head. Not compatible with all floor cores.

Male/Female Jumper

Power Unit

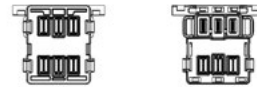

White Distribution Block

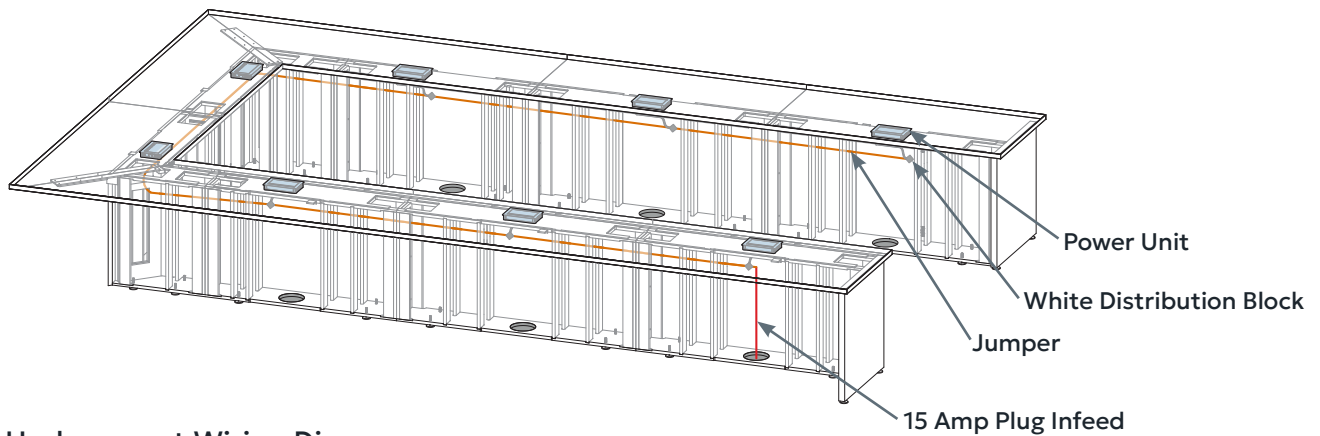

*Distribution block is shown as grey for diagram only. Actual distribution block is white in color.

SYMPOSIA CONFERENCE TABLE FEATURES

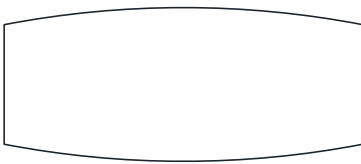

SYMPOSIA CONFERENCE TABLE SHAPES

Symposia Conference tables are exquisitely beautiful and agile. The tables are offered in sinuous and angular geometric options, with wood veneer, laminate and quartz materials available for an unlimited collection of design versatility. The infinity bases are specifically designed to provide luxurious leg room, multi-level wire management and an elegant full length modesty panel.

GRAIN DIRECTION

Wood Veneer

Grain direction on wood veneer table tops runs parallel to the depth, short grain. Grain direction on the base runs vertically.

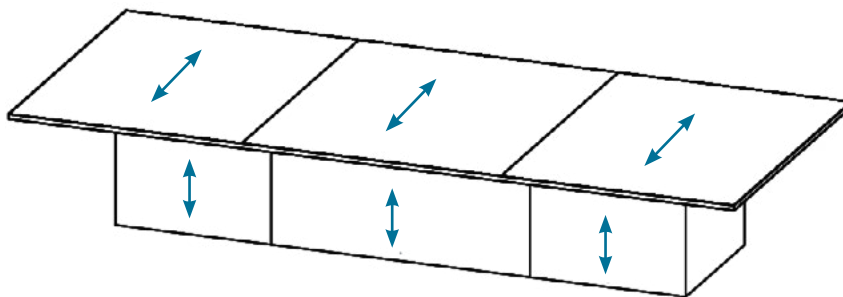

Wood veneer tables are constructed with veneer on the table top and base from the same tree, providing consistency in color and grain pattern. Wood veneer is book matched or slip matched, depending on species and cut, on both the table top and base.

Laminate

Grain direction on laminate table tops runs parallel to the depth, short grain. Grain direction on the base runs vertically.

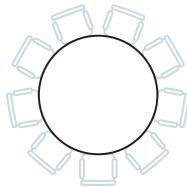

Nevers' master craftsmen take exceptional care to create a beautiful table with expertly optimized grain matching, however, matching grain at the seams of laminate tables with a wood design is not always possible. Laminate is inspected for defects, color matching and sheen variations to ensure consistency and quality.

SEATING CAPACITY

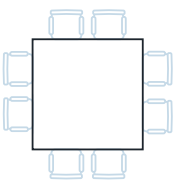

Seating capacity is based on 30" per person. Tables can seat two people per end.

CONFERENCE TABLE OPTIONS

TABLE TOP OPTIONS

Starburst Sketch Face

Multiple wedge-shaped pieces of wood veneer are arranged and joined to radiate outwards from a central point, creating a star-like pattern.

Inlay

1/4" pieces of inlay are inset into hand routed grooves located 4" from the edges of the table top creating a border or framing effect.

Laminate Inset with Wood Edge

High Pressure Laminate (HPL) is edged with solid wood finished flush with the laminate. When a wood grained laminate is specified a matching wood species is applied and stained to match the laminate.

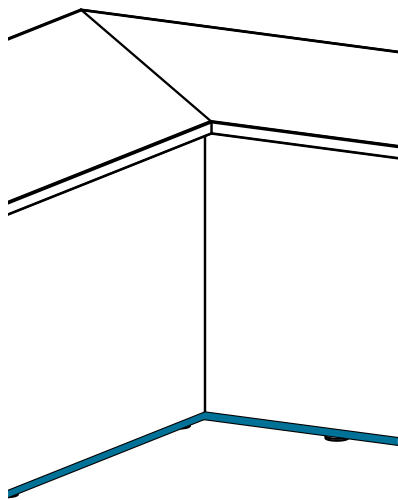

CONFERENCE TABLE OPTIONS

BASE OPTIONS

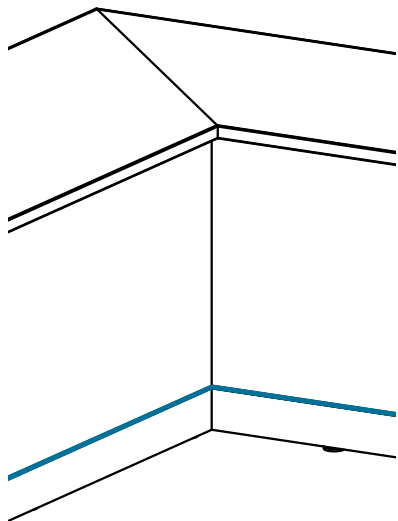

Plinth

A 3/4" high plinth base is inset 1/4" around the entire perimeter of the base. Plinth is available in black or silver.

Reveal

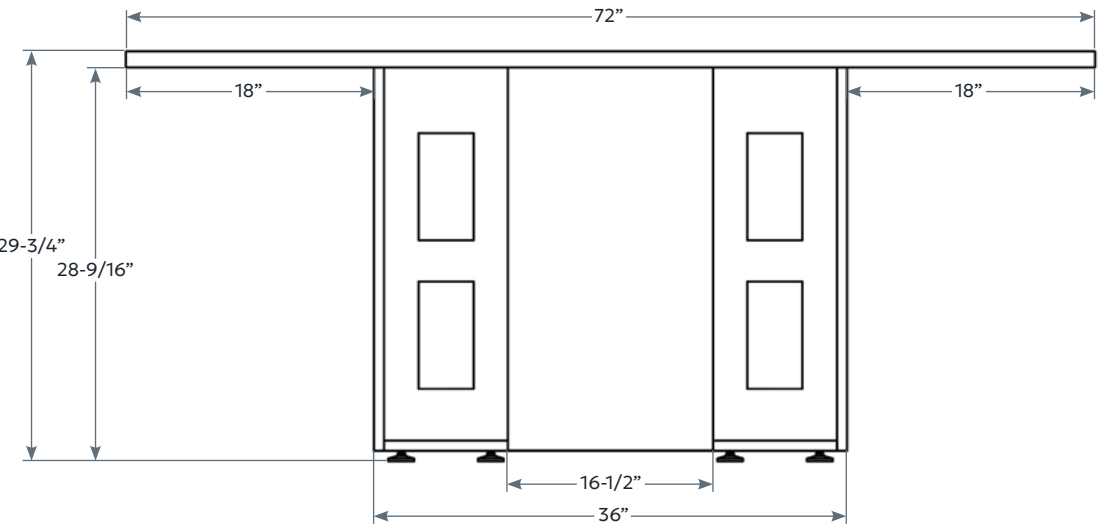

1/4" x 1/16" section of the base is routed out and finished black, creating a decorative void. The reveal is located 4" above the bottom of the base.

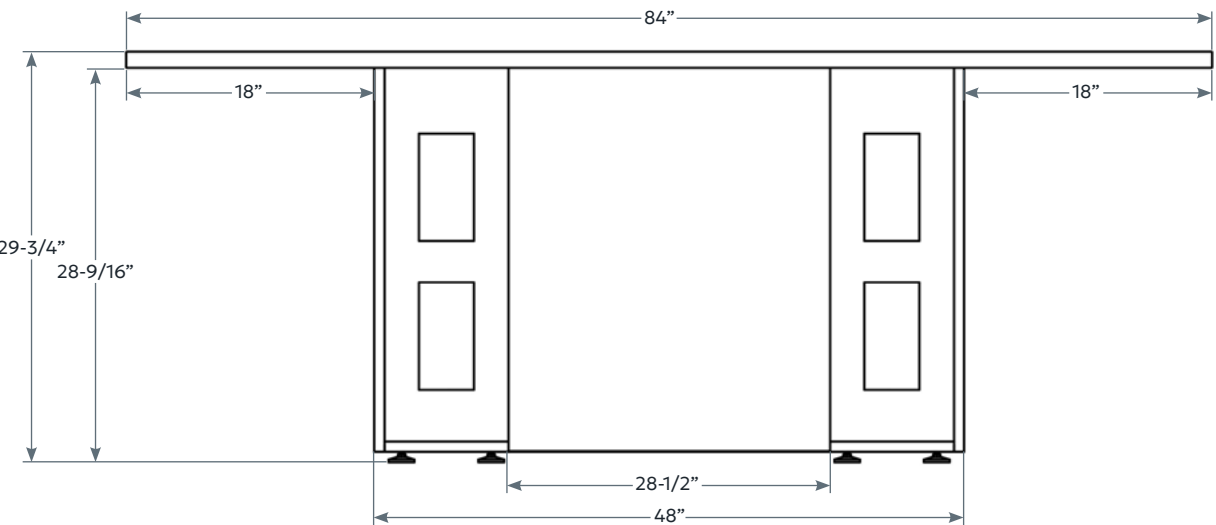

BASE SPECIFICATIONS

The shape of the Infinity Base echoes the shape of the table top for continuity of design. The base is full height from the underside of the table to the levelers at the finished floor and is finished on both sides, which functions as a modesty panel.

Base Dimensions

72" Deep

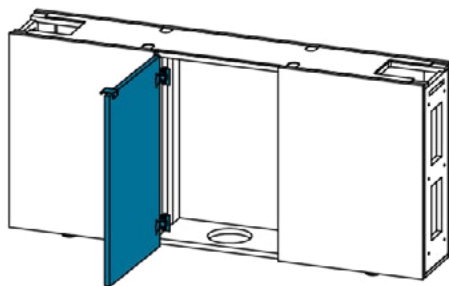

84" Deep

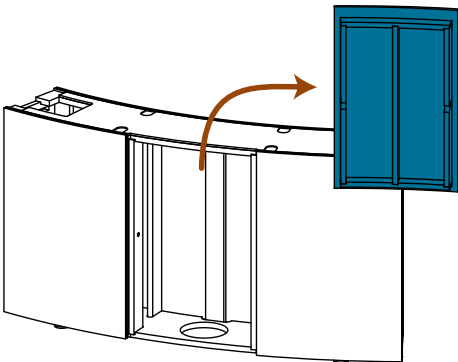

BASE SPECIFICATIONS

ACCESS DOORS

Every conference table base comes standard with access doors.

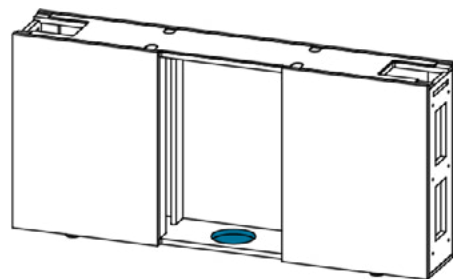

Straight Base with Hinged Door

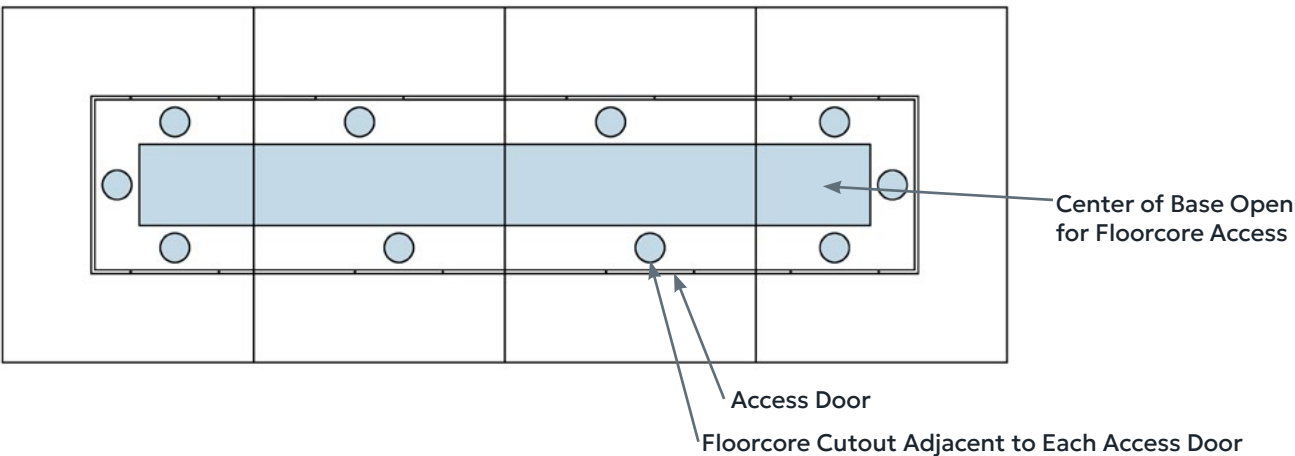

Curved Base with Removable Access Door

FLOORCORE ACCESS POINTS

Round cutouts in the bottom of the base are centered adjacent to every access door for access to floorcore locations. The entire center of the base is open on the bottom for access to floorcores.

Hinged Access Door Removed

POWER KITS

Power and data connectivity on Symposia tables is provided using pre-configured power kits with the option of in-surface power with Becker or Sibley units or undermount power with the Wilkin unit.

Power Units

Becker

Configuration

- (2) Power Outlets
- (1) USB A+C charging ports
- (1) Open port for IT/AV connection

Sibley

Configuration

- (2) Power outlets
- (1) USB A+C charging ports
- (1) Open port for IT/AV connection

Wilkin

Configuration

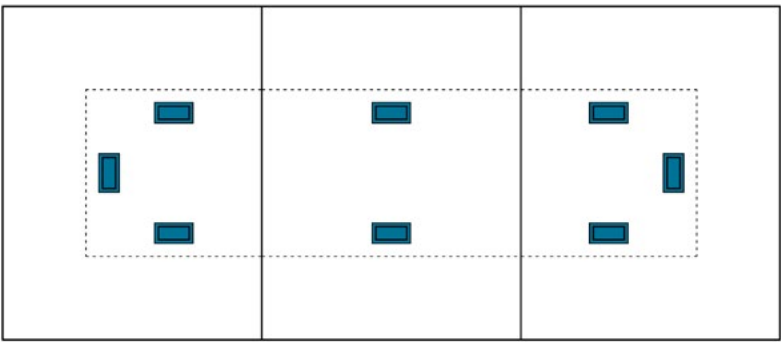

- (2) Power outlets
- (1) USB-A+C charging ports

- See power pricebook for additional information on power units and Pattern linking system.

Placement

The placement of the power units is configured to accommodate two people per power unit. Power is configured around the perimeter of the base for ease of access. Due to the depth of the table tops, center mounted power units can have reach restrictions.

Note: Power unit locations and quantities may vary based on the table size, shape and top material.

POWER KITS

POWER KIT WITH LINKING SYSTEM

Each power unit is connected into a single circuit modular electrical system in the table from which a 15 amp plug infeed connects to the floor monument. Power units are connected to male/female jumpers and the infeed with white distribution blocks. White distribution blocks allow for one power unit, 1-3 jumpers and one infeed. 10 power units can be connected together with one infeed. Power kits with more than 10 units will include two infeeds

Power Kit Components

108" Long 15 Amp Circuit Breaker Plug Infeed

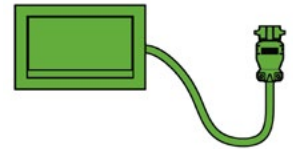

*Infeed comes standard with 90 degree plug head. Not compatible with all floor cores.

Male/Female Jumper

Power Unit

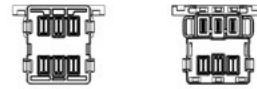

White Distribution Block

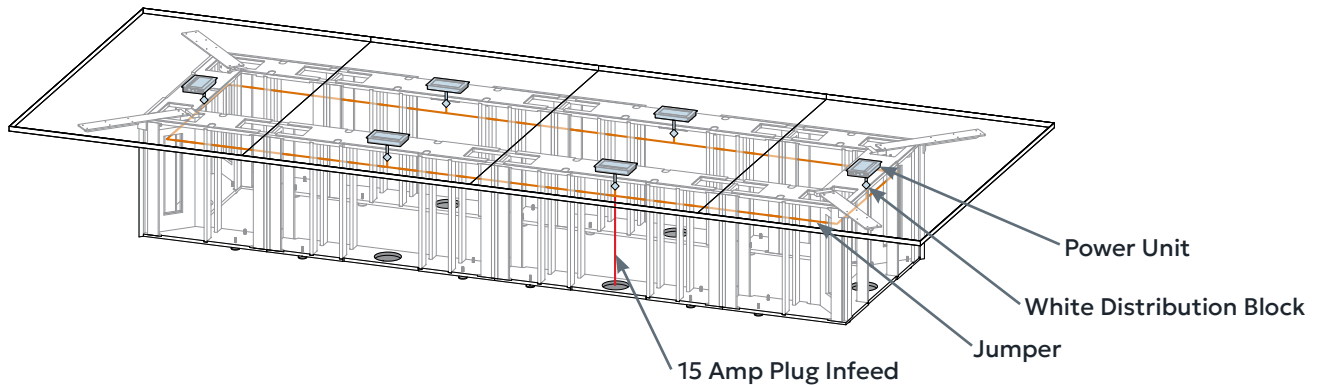

*Distribution block is shown as grey for diagram only. Actual distribution block is white in color.

GENERAL RESOURCES

Terms and Conditions

For the latest version of our Terms and Conditions, please visit the Nevers website: <https://www.nevers.com/about-nevers/terms-conditions/>.

Freight

All orders under \$3,000 net are subject to a minimum order charge of \$325. Nevers also reserves the right to establish a surcharge fee. This surcharge will be established at the time of quoting. All orders under \$3,000 net are subject to additional freight charges.

Warranty

For our warranty, please visit the Nevers website: <https://www.nevers.com/about-nevers/peace-of-mind-warranty/>

Cleaning

Cleaning Fine Wood Furniture

- **Accidental Spills:** Spilled liquids should be wiped up immediately with a soft, absorbent cloth.
- **Periodic Dusting:** Clean with a slightly damp cloth, using another soft cloth to dry. Always wipe in the direction of the wood grain. Oil, ammonia, and silicon products should never be used on wood furniture.
- **Regularly/Monthly Cleaning:** Lightly soiled areas may be cleaned with Guardsman Wood Cleaner products, following the cleaner's directions. Surfaces should be cleaned with a soft cloth, wiping in same direction as the wood grain and dried with a soft cloth. Oil, ammonia, and silicon products should never be used on wood furniture.
- **Polishing Wood Furniture:** We do not recommend the use of commercial wax or polish which may leave undesirable residues. If polishing is desired, use a polish that is silicone free such as Guardsman Wood Polish. Oil, ammonia, and silicon products should never be used on wood furniture.

Cleaning Laminate Surfaces:

- **Periodic Dusting:** Clean with slightly damp soft cloth, using another soft cloth to polish dry.
- **Regularly/Monthly Cleaning:** Lightly soiled areas may be cleaned with a soft cloth and mild liquid detergent. For stubborn stains, use a non-abrasive ammonia-based household cleanser, being sure not to get any cleanser on any wood or wood trim. Oil, ammonia, and silicon products should never be used on wood or wood trim surfaces.
- **Polishing Laminate Furniture:** We do not recommend the use of commercial wax or polish which may leave undesirable residues and possible streaking. If polishing is desired, use a laminate polish being careful not to get any polish on any attached wood trim. Oil, ammonia and silicon products should never be used on wood or wood trim surfaces.
- **Cleaning Metal and Painting Metal Surfaces:** Regular/Monthly Cleaning Lightly soiled areas may be cleaned with a soft cloth and a mild detergent.

For specific questions or for more information, please contact your Nevers rep or Nevers directly at 1-800-242-2443.
